SECTION

To

mf 31-23-2

T. E. JEYARAM IYER, ESQ., B.A.,B.L.,
Secretary to the Government of Mysore,
Revenue Department, B A N G A L O R E.

Sir,

I have the honor to submit herewith, for the orders of Government letter No. H.C. 45/Rev. 23-24 dated the 28th July 1923, from the Deputy Commissioner, Shimoga, submitting proposals for the revision of establishment in the Thirthahalli town. It will be seen that the main items of revision are (i) the abolition of the post of Sanitary Maistry and (ii) the appointment in his stead of a "Revenue and Sanitary Inspector" (iii) changes in the office staff involving a small increase of pay to the Head Clerk and change of designation of the Second Clerk and (iv) the strengthening of the conservancy staff by the addition of a Duffedar.

2. I inspected the Thirthahalli town on the 9th Instant and availed myself of the occasion to examine the proposals for the revision of the staff in the town. Enclosed is an extract from my notes of inspection on the subject There cannot be a divided opinion as to the need for the employment of a Sanitary Inspector for the town, but I regret, I do not see my way to support the proposal to designate the official as "Revenue and Sanitary Inspector" As you are aware, the backwardness of sanitation in towns and villages is in some measure due to the Sanitary Inspector being harnessed with heavy extraneous duties which leave him little time for his legitimate sanitary work. With a view to

9 1414 & 2717

to minimise this as far as possible, Government have issued clear instructions directing that local officers should abstain from employing Sanitary Inspectors on other than strictly sanitary duties* Under the circumstances it is inadvisable to accede to an arrangement such as the one proposed by the Municipal Council

* Vide para 2(b) of G.O. No.5113-63/San.86-13-35 dated 8th February '17.

I may note further that the scale of pay Viz., Rs40-2-50 is not in conformity with that sanctioned in Government Order No. R 6700-17/L.B. 70-19-2 dated the 9th December 1919. No provision has also been made for the grant of a cycle or pony allowance under para 5 of Government Order No. R. 16474-95/M1. 184-16-23 dated the 24th June 1919.

3. I am further of opinion that the strengthening of the conservancy staff is at least as important as the employment of a Sanitary Inspector for the town. This matter has received no attention beyond proposing the creation of a post of conservancy Duffedar on Rs15/- per mensem.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Sanitary Commissioner.

Subd for orders with reference - A reminder since rec'd on the subject from the Chairman with L.2717 is also put up.

14/11/23

No:H.C.45/Rev.23-24. Office of the Deputy Commissioner,

Encls 11 Dated Shimoga, the 28th July 1923.

From

A.K. Syed Taj Peeran, Esq., B.A.,
Deputy Commissioner,
Shimoga District.

T.E. Jayarama Iyer, Esq., B.A., B.L.,
Revenue Secretary to Government,
B a n g a l o r e .

Sirx Through

B. Md. Usman, Esq., L.M.&.S.,
Sanitary Commissioner in Mysore,
B a n g a l o r e .

Sir,

In continuation of (paragraph 2) this office letter No: C.1015/L.B.22-23 dated the 25th May 1923 addressed to the Sanitary Commissioner in regard to the appointment of a full time Revenue as Sanitary Inspector for the Tirthahalli Municipality, I have the hon to state that there is at present in the Municipality an establishment costing Rs 308/- per mensem including a sanitary maistry on Rs 20/- for looking after the sanitary work of the town. To provide for the appointment of a trained wholetime executive official as required in G.O.No:R.16474-95/M1.84-16-23 dated the 24th June 1919 the Municipal Council have proposed the revision of the establishment by abolishing the post of the Sanitary Maistry. The cost of the establishment, as revised, comes to Rs 361/- per mensem including a provision of Rs 40-2-50 for the pay of the Sanitary Inspector thus resulting in an excess of Rs 53/- per mensem over the existing expenditure. The Sanitary Inspector being the only highly paid executive subordinate of the municipality it is proposed to entrust him with the work of supervision over the collection of octroi and other items of municipal revenue. With this object in view the Municipal Council,

11

Council have resolved to style the official as "Revenue and Sanitary Inspector" I am in full agreement with this proposal and recommend the same for the kind sanction of Government.

2. The scale of office establishment as noted in the margin was sanctioned in G.O.No: 6102/Mi. 67-17-23 dated the 1st May 1918 when the revenues of the Municipality were below Rs 7000

1). 1 clerk on Rs 20/- now 25/-.
2). 1 clerk on Rs 15/- now 20/-.
3). 1 peon on Rs 8/- now 11/-.

As the present income of the Municipality is nearly Rs 9000/- and as the town has in consequence to be classed as a II class Municipality I request that the proposal of the council to raise the pay of the first clerk from Rs 25/- to 30/- per month and to utilise the savings, effected by the abolition of the second clerk, for appointing a bill collector may be sanctioned.

3. In this connection I may add for the information of Government that the town of Tirthahalli is growing both in area and importance and the Municipal Council have already submitted their resolution for the conversion of Tirthahalli into a Town Municipality. A recommendation in this connection will be submitted separately for the sanction of Government.

4. In conclusion I beg to state that the present establishment of the Municipality is wholly inadequate to effectively attend to the needs of the growing town and therefore recommend that the revision of the establishment as detailed below which is found quite neeessary may kindly be sanctioned.

Existing scale.		Proposed scale.	
1 clerk on Rs 25/-	25/-.	1 clerk on Rs 30/-	30/-.
1 " " 20/-	20/-.	1 peon " 11/-	11/-.
1 peon " 11/-	11/-.	1 gardener" 11/-	11/-.
1 gardener" 11/-	11/-.	1 octroi mustaddi 20/-	20/-.
1 octroi mutsaddi 17/-	17/-.	2 kolkars at Rs 12/- each	24/-.
2 kolkars at Rs 12/-	24/-.	4 " " 11/- "	44/-.
4 " " 11/-	44/-.	1 Bill collector 20/-	20/-.
1 Sanitary Maistry 20/-	20/-.	2 scavengers at Rs 13/-"	26/-.
2 scavengers at Rs 13/-	26/-.	10 sweepers " 11/-"	110/-.
10 sweepers at Rs 11/-	110/-.	1 Revenue and Sanitary Inspector on Rs 40-2-50	50/-.
Total.	308/-.	1 conservancy Duffedar 12-1-15.	15/-.
		Total.	361/-.

12

Tirthahalli Municipality President's Note No: 21 dated 12th July 1923 to the Deputy Commissioner, Shimoga.

"""""""

Subject:- Proposals for the appointment of a full time Sanitary Inspector for the Tirthahally Municipality

===

There is at present no full time Sanitary Inspector for this Municipality. The income and expenditure of this Municipality is Rs 8960/- and 8611/- respectively as per account of 21-22. It has 950 occupied houses and a population of 3334 according to the census of 1921. Besides there is a large floating population coming from South-Canara between September to May in every year. One of the major jatras is held in this town during Yellamavasye.

The town is growing in area and in importance. New extensions are being formed all round. Proposals have been separately submitted for converting this Municipality into a town Municipality and for extending the Municipal boundary. New bye=laws are proposed to be passed.

There is an income of Rs 6350/- from octroi alone, which has got an establishment of 7 hands costing Rs 1080/- with four octroi kattes and one central katte. The conservancy establishment consists of 13 hands costing Rs 1800/- per annum.

The Sanitary Maistry attends to collection work, which alone gives him sufficient work. He is not a trained or qualified hand and does no know anything about preparation of estimates and plans for works and ha not got sufficient status to control the big establishment, since he is to look after the collection work, he will find no time to supervise the conservancy work. Since the town is brought under the compulsary vaccination ~~xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx~~ rules, a superintendent of vaccination is necessary to work the rules and see that all children in the town are duly protected. A full time Sanitary Inspector is also necessary for conducting municipal cases in Court. The Sanitary Inspector of the Taluk Board will not be able to attend to all these items of work. It is therefore proposed to appoint an official of sufficient status to supervise collection, sanitation, vaccination, etc., and to designate

him

him as " Revenue and Sanitary Insnector " The bill collector will be subordinate to the Sanitary Inspector, and will maintain accounts pertaining to the collection work. The Sanitary Inspector will conduct distraint and sales.

It is proposed to abolish one clerk as there is not sufficient work for two hands in the office. The conservancy Daffedar will supervise the work of the conservancy staff and he and octroi peons will work under the supervision of the Revenue and Sanitary Inspector.

Provision has been made in the budget for 23-24, for increased e due to alteration in the scale. No re-appropriation of funds in the Budget for 22-23 is necessary as the year has closed.

****

" C o p y "

Deputy Commissioner,
Shimoga District.

SGR

NOTES OF INSPECTION OF THE THIRTHAHALLI TOWN BY THE OFFICIATING SANITARY COMMISSIONER IN MYSORE.

14

Inspected the town with the Deputy Commissioner, the Sub Division Officer, the President and the Vice-President of the Municipal Council.

2. The conservancy staff consists of two scavengers, ten sweepers, 1 rubbish cart and a Sanitary Maistry who is an unqualified man. The staff is inadequate for a town like Thirthahalli. The number of scavengers should be increased. The "Pit" system of conservancy should be discouraged and the daily conservancy system introduced without delay. This has long been overdue.

In regard to the collection of town refuse, the existing staff including the conservancy carts should be strengthened to the limit of the resources available. There should be at least two conservancy carts. Provision may also be made for an adequate number of dust-bins.

The introduction of the daily conservancy system is a problem naturally beset with difficulties. A vast amount of preliminary work has to be done before the system can come into general use, such as the opening out of conservancy lanes provision of daily conservable latrines in houses &c. But the difficulties are in a way only a measure of the vigour with which the question requires to be tackled. Now that the new extensions are being developed, the introduction of the daily conservancy can no longer be delayed. In the town itself there are I believe several houses to which the system can be extended if the Municipal Council can provide the manual labour either free of cost or on recovery of a special conservancy cess. The bringing together of all such houses under Municipal Council control immediately is the first practical step towards the general introduction of the daily conservancy system and I would strongly urge necessary action being taken under section 69 (VI) and (VII)

of the Municipal Regulation. Though in the beginning the people may not realise the advantages of the system, yet in the long run they will thank the Council for the benefits conferred on them by the introduction of the system.

Instead of a conservancy cess, a general sanitary cess or better still, a sanitary tax may be imposed and the revenue derived ear marked for the acquisition of properties and the opening out of conservancy lanes. Suitable bye-laws may also be kindly framed

It may be noted that one sweeper is expected to conserve on an average about 30 houses a day. Additional staff may be engaged on this basis. I am of opinion that at least 10 scavengers should be entertained to begin with. It is also important to provide a reclamation ground at some distance from the town to trench the night-soil. Shallow trenches two feet wide, 18 inches deep and and two feet apart should be dug which, after receiving 12 inches of raw manure should be filled in with the earth taken out, one acre per 1,000 of population (in respect of the houses actually conserved) is surricient. It is desirable that any beginning though small should be thorough in order that the people may realise for themselves the real benefits of the system and ask for its general adoption.

3. Closely allied to the above arrangements is the systematic enforcement of the sanitation of premises under the provisions of the Municiapl Regulation - For this purpose the removal of the sanitary maistry who is an unqualified man, is very essential. I am glad to note that the Municipal Council have decided to abolish the post and create the appointment of a Sanitary Inspector instead, in pursuance of the orders of Government contained in G.O.No. R. 16474-95/M1. 184-16-23 dated the 24th June 1919. But I cannot uphold the proposal to designate the official as "Revenue and Sanitary Inspector" and entrust him with the revenue duties, which will certainly engage his entire attention, leaving him but little time to interest himself in the sanitation of the town.

"EXTRACT"

16

5. A copy of the resolution of the Municipal Council on the subject passed on the 6th April 1993 as also a copy of the note dated 12th July 1993 from the President are enclosed for perusal and orders of Government.

- MAY 1924

To

B. Nagappa, Esq., Bar-at-law.,
Secretary to Government,
Local and Legislative Department,
Bangalore.

Sir,

With reference to your letter No:L.4139 dated the 1st December 1923 calling for the resolution of the Tirthahalli Municip Council on certain points mentioned in the Sanitary Commissioner's letter in regard to the revision of the establishment of the Municipality including the appointment of a Revenue and Sanitary Inspector, I have the honor to state as follows:-

The chief objections of the Sanitary Commissioner are:- (1) the Sanitary Inspector should not be hamnessed with Revenue and other heavy extraneous duties (2) he should be given a pony or bycycle allowance (3) the Conservancy staff should be strengthened. The Municipal Council are of opinion that the Revenue and Sanitary Inspector will be required only to supervise the collection work. This work as well as the Sanitation work can be attended to by one executive official i.e., Revenue and Sanitary Inspector without any difficulty. Tirthahalli is a very small town and there is already a bill collector to attend to the collection work. What is required of the Revenue and Sanitary Inspector is, to supervise and control the collection staff and to attend to the execution of attachment warrants in a few instances. This work will not, I think, give much work to the Sanitary Inspector and he will have plenty of time to attend to the Sanitation of the Town. As regards the cycle allowance it has be stated that the scale of pay is fixed taking into considerati

the cycle allowance to be paid to him and as such, it is not considered desirable to give him any extra allowance for the present. This matter will be taken up for consideration, if necessary, after two or three years.

2. In regard to the strengthening of the conservancy staff, the Municipal Council are of opinion that it is not necessary for the present to increase the staff. The present staff may be made to work more efficiently under proper supervision and control of a conservancy Daffedar and Sanitary Inspector. Moreover the resources of the Municipality, are very slender and it is not possible to create an appointment of a highly-paid executive official for sanitation work and to increase the conservancy staff for some time to come.

3. In these circumstances, I recommend that the proposals of the Municipal Council submitted with this Office No:H.C.45/Rev.23-24 dated 24th July 1923 through the Sanitary Commissioner may kindly be sanctioned early.

I have the honor to be,

Sir,

Your most obedient servant,

A Vishwanatha

Deputy Commissioner,

& Shimoga District.
